DATA NATIVES

To Whom it May Concern,

Mr. Chenchao Liu has participated at our conference, Data Natives in November 22 2018. The conference focused on topics around big data, machine learning and AI in relation to industry verticals such as healthcare. Mr Chenchao Liu acted as one of three panellists in a moderated discussion on Conducting Business in Other Countries: The Chinese Market.

Interacting with the two other panellists, Daniel Lachmann Chinapreneur in Stealth Mode and Mira Suleimenova, Legal Consultant Chenchao Liu contributed to a lively discussion and contributed important insights from a Sino-German perspective.

I am grateful for his contribution and recommend Chenchao Liu for any similar events as a speaker or panellist.

Best Regards,

Elena Poughia
CEO & Founder
